Xylitol dehydrogenase induction *Pullularia* 107  
Xylitol dehydrogenase regulation *Pullularia* 112  
Xylose metab repression yeast glucose 1316  
Yeast aminopeptidase Y 118  
Yeast budding fission sexual asexual flocculation 1105  
Yeast fission flocculating cell *Schizosaccharomyces pombe* 577  
Yeast fission *Schizosaccharomyces pombe* growth 1338  
Yeast flocculation 779  
Yeast flocculation calcium phosphomannan 773  
Yeast frog intrathrombocytic *Thrombocytozoons ranarum* Tchacarof 1096  
Yeast glucose xylose metab repression 1316  
Yeast glycerol arabitol trehalose formation transport 605  
Yeast growth cell cycle *Sporothrix schenckii* 1083  
Yeast identification decaying cactus tissue 1025  
Yeast vacuole trehalase transport 835  
*Yersinia enterocolitica* antibody inhibition HeLa cell 52  
*Yersinia enterocolitica* survival environment 753  
Zinc iron *Proteus* swarming 588  
Zoopathogenic fungi *Blastomyces dermatitidis* interaction 897  
*Zostera marina* marine nitrogen fixing bacteria 886
